Dear Ms. Morash,

Re: McNally Robinson / Medical Centre

Needless to say, we are devastated at the loss of McNally Robinson. However, a thought immediately came to mind. As you are aware, a motion was passed at City Hall in October that

'Cadillac be requested to continue its efforts to create tenancies for medical practitioners and medical service providers within the Don Mills Centre in consultation with the Ward Councillor.'

This building would make an excellent Medical Centre for the practitioners presently at 75 The Donway West. Such a Medical Centre, with the addition of other medical practitioners, might also attract a necessary important laboratory facility, which we recently lost at 75 The Donway West.

Having a Medical Centre in the Shops at Don Mills would ensure a continuous flow of people unrelated to the economic climate, assuring your retailers of an increase in business.

I would appreciate your comments.

Yours sincerely  
Jeanetta A. Vickers  
Advocate for the Don Mills Medical Centre.
