

# Cadillac Fairview should be ashamed

Re: 'City must stop destruction of Don Mills Centre,' Letters, March 22.

Bravo, Karl Frank. I would like to add to Frank's concern for the senior citizens who regularly use the Don Mills Centre as their informal gathering place to escape the cold of winter and the heat of summer.

Where are these folk to go for two or three years while the centre is being changed? And after the change, where are they to go if all we have will be an outdoor shopping space?

Warmed sidewalks will hardly be a welcoming space for the 80-plus crowd.

But then who at Cadillac Fairview cares about them?

They will be looking to their upscale condo owners to shop at the new upscale shops. Shame on them.
